

Easy Prep Instructions for Bed Bugs

General Instruction:

Remove all items from the apartment living areas such as the Bed Room and Living Room the following items listed below. The unit should be vacated minus the kitchen, and major furniture like beds, dressers, shelves, couches, etc.

Closets- everything should be removed and bagged

Under the bed- everything should be removed and bagged

Dresser drawers and other drawers- all contents should be removed and bagged.

Nothing should be placed ON the Furniture

Nothing should be on the Floor.

Nothing should be up against the walls.

Bag All Items:

All items must be bagged properly to avoid further infestation. Black bags can be purchased from the Grocery Store at a nominal cost. Items should be placed in the black bags, tied, and then removed from the unit. It is idea to place the bagged items either on a balcony or outside where the sun can warm the interior of the bag. This is important to kill any infestation.

Treatment areas:

Bed, Bed Frames, Drawers, base boards, around the bed area, furniture

Preventative:
